

The Family Sphere is the foundation of a nation; don't let what God intent to do with the family in Haiti intimidates you, extreme condition calls for extreme measure. The conditions in Haiti are extreme; they require a different approach to fix things.

What are the Spheres?

The Seven Spheres That Shape Nations

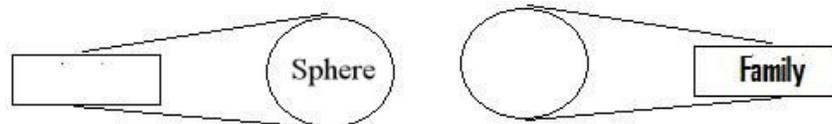

■ Spheres are mind molders that shape nations.

The Seven Spheres of Influence

- 7_ The Religious Sphere, **God**: The Church, Faith
- 6_ Family Sphere, parents shaping children
- 5_ Education Sphere: Teaching children, shaping their mind
- 4_ Government Sphere: Write the law, the support system
- 3_ Media Sphere, spin machine, Talk show, Entertainment
- 2_ Art: Songs, things we laugh
- 1_ Business, Finance, Technology

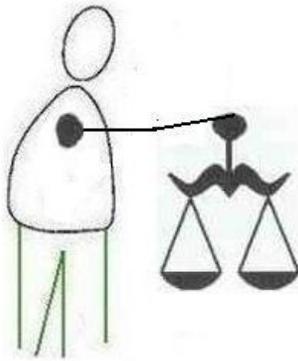

The Foundation of a Nation

God wants to change condition in the Third World, reduce stagnation and retardation which are the causes of poverty. In order to do that He wants to start with the family. The family unit is the foundation of a nation; if the foundation is right the nation will be right as well. Haiti will be the pattern for other nation to follow. This law shall be in place by 2012, everyone must pitch in to make it happen to reach beyond the borders of Haiti to other nations.

The Pre-birth Certificate: what is it?

A Threefold Cord: is not easily broken

A threefold cord is not easily broken, father, mother and child. The pre-birth certificate provides the third leg of the family bond that will ensure that the family structure stays intact. This is why we are proposing the [Pre-Birth-Certificate](#) to ensure that the family unit is not broken. The devil can only get to our kids when there is a missing link; when they are raised in broken homes, usually with the father missing. This [Pre-Birth-Certificate](#) will make both parents accountable for the welfare of their child before bringing this child into this world. This is the way to close future gates that are giving access for hell to operate in this world. [Pre-Birth-Certificate](#) is a guarantor as such it provides a certain pre-arrange security guarantees by the state that a child when enter this world, he or she has a home and parents to provide for their care. If the parents are not able to take this responsibility, they must defer this obligation to someone else. Someone must come forth to assume their responsibility. This certificate will ensure that responsibility. This certificate will ensure that young fathers take their responsibility; preventing them from living their wives and kids, breaking up the family unit. Family is the foundation of a nation; this pre-birth certificate will create the support system they need that will prevent them from getting into their egos where pride rather that the love and the

nurture they need to provide for their family. The cause of the break up of the family unit is ego, useless pride, rather than facing the shame of not been able to take the responsibility of fatherhood; they rather run away leaving their wives and kids.

Too many doors are opened for the forces of darkness to maintain humanity in bondage, pain and suffering. After a period of reconstruction in Haiti, the government should undertake the task of implementing this new idea, replacing the birth certificate with a **Pre-Birth-Certificate**. To alleviate human suffering, we must deny the devil, the platform to operate, bringing souls into this world through gates that guarantee them pain and sufferings.

- The family structure is the first sphere that He wants to impact; because it is the foundation of every nation. If the family sphere is inline with God, all of the other spheres will follow.
- We need to embrace the fathers, teach them how to take responsibility for their wives and kids. We are proposing the introduction of a pre-birth certificate for the Third World that will ensure that a child before birth has a home and a family waiting for the child before it enters this world. This will also provides a support system for young fathers to avoid the pitfall of leaving their wives and kids or act with violence toward their wives just because they cannot face the shame of not been able to face their responsibilities. This pre birth certificate will both ensure that a child has a father and a father does relinquish his responsibility of fatherhood just because of financial or other social constraints. This will serve as a deterrence to keep young fathers from getting into their egos rather than the love they have for their wives and kids which is responsible for them to leave their wives and kids rather than facing the shame of not been able to face their responsibilities as fathers, as heads of their household. A pre-birth certificate will ensure that they take that responsibility without shame. We can work with them, prepare them for fatherhood. The breakdown of the family

begins with the fathers; we need to keep intact the family unit which is the building block of nations. If there is no family structure; there is no foundation for a strong and vibrant nation.

Closing the Gates of Hell: Implementation

Every child born in Haiti **after 2012** will have a **Pre-Birth-Certificate** that satisfies the demands of the state that every child born in Haiti should have a home, a father and mother. How the state will enforce such requirement rests in the discretion of the public officials.

This certificate will replace the regular birth certificate. It will ensure that a child that is born in Haiti will have a mother and father and a home **before** enter this world.

Here are some guidelines:

- 1_ Application for this certificate can be applied at the hospital where the mother is giving birth or in advance at the government office that is set to handle this task when the mother is expecting.
- 2_ Two years shall be sufficient enough to give the Haitian government enough time to set up this process
- 3_ Each applicant will have three months after giving birth to complete the application and satisfies the demand of the state
- 4_ A **Pre-Birth-Certificate** is not valid until all of the demands of the state are met.

The Requirements

- 1_ The mother will be required to declare the father of the child, information on the father will be given to the state so that the father can be accountable.

2_ A fine will be levied on both parents after three months if the demands of the state are not fulfilled.

3 If a father dispute paternity; he will be required to take a DNA test hence the mother presented him to the state as the father of the child.

4 If the paternity test fails, a fine will be levied against the mother for bringing a fatherless child into the world.

5_ A mother must know who is responsible for her pregnancy. Both parents must prove to the state that that they are able to support this child or someone else must take responsibility for them. Fines will be levied.....

6_ How the payment of these fines will be enforced will be left to the discretion of the state officials.

We cannot have irresponsible people bringing souls into this world to suffer, opening gates of hell on earth; this must be stopped here in Haiti and in other Third World Countries.

Note: A Case for Family Planning

Family planning is necessary to curb population growth and children growing up without fathers and care. The people of Haiti are not going to do it on their own accord; they need a push. The state must intervene to establish this Pre-Birth-Certificate as law. It is not human nature to resist the impulses of the body; constraint must be placed around them. “*Without restraint the people run wild*”. Constraints must be placed around us from within and from without. The **Pre-Birth-Certificate** is a perfect deterrence to population growth. God places certain constraints around us to

guide our spirit, to keep us from succumbing to the impulses of the body. The Law, the Statutes and the Commandments of God are here to keep us from becoming subservient to the animal instinct of the body. Without them we are animals, dust of the ground with no redeemable nature; dust to dust, to dust we came and to dust we shall return. There must be something in place in Haiti and in other Third World Countries to prevent people from bringing children into this world without homes and fathers to care for them. The **Pre-Birth-Certificate** will ensure that both parents are accountable for their action; for opening the gate and bring soul into this world. If they are bringing souls into this world; the gate should be prepared so that when they enter this world, they don't enter into hell but a paradise what God originally intended for mankind.
