

## **The Third Factor is synergy of the Holy Spirit**

The third Factor is the third leg in the series [The Power of Convergence](#) by Dr. Lance Wallnau and Dr. Mark Chironna, commented and illustrated by Robert Noel. This concludes the series. It is a tool to help you maximize your potential; fulfill your assignment, what God calls you to do. Until now, Jesus said that God the father is busy working, taken back territories from the devil, free people that are under demoniac control, this series will help you work with God to do the work that He called you to do.

## **Synergy of the Holy Spirit**

Two can do more together than either one can do separately; this is synergy. There is an exponential factor that takes place when you join two together. Synergy is the exponential factor that happens when you add two together and you get a greater factor than two separately. When you join with the Holy Spirit of God, you increase your factor by many folds. The Holy Spirit of God can help you bridge the gap between your current reality and your desired reality, between where you are and where you want to be. There are certain things that you are not going to be able to do on your own without the help of God. God is the ultimate arbitrator in certain decision; you cannot objectively make the choice on your own.

## **Why do we need to get into the flow of life** (Rhythm?)

Because of the rapid pace of accelerated change, we don't quite get closure of one season before we enter the next. We often are dealing with things that belong to our past seasons rather than the present. God wants us to slow down to the speed of life, God's life, the [Unforced Rhythms of Grace](#), to the pace of life. Knowledge has accelerated to such a pace that we no longer can stand still; we have to constantly moving from one thing to another. We don't know how to get closure from one situation to the next simply because of the accelerated pace of living. We have too much knowledge to handle; we don't know how to handle the changes, the transition from one situation to the next or how to close one situation before we enter the next. This is the reason why we enter the next situation with problems of former situations that should have ended. In order to fix that, God wants us to slow down to the speed of life; to God's life, to the rhythms of life. We need to follow [The Unforced Rhythms of Life](#).

## **Invitation from Jesus**

Here is an invitation from Jesus; this is synergy; Jesus is inviting us to join Him for our own benefit so that He can help us close the gap between our current reality and our desired reality, between where we are and where we want to be. As long as we are not where we want to be, we will not be happy. ***["Come to Me, get away with Me and you will recover all"](#)***. Two can do more than either one can do separately. There is a rhythm to life, a particular speed that you must adjust to if you want to recover your life. Your Father God is your deep source and He lives within you by the agency of the Holy Spirit and He places within you a cadence or rhythm and eternity is in your heart and in your heart are the highways to Zion. Zion is heaven. Even if you are not fully conscious of your assignment or purpose in life, but if you honor the fact that God has already put purpose inside of you and if you yield to the rhythms, [The Unforced Rhythms of Life](#); you will recover your life. You cannot manipulate those rhythms, you cannot control

them; they are part of the sovereign working of God in your life. As you yield to them and you begin to move with the spirit of God and breath in life with the spirit of God, things begin to come your way that would never come your way before. And so you and I need go to the source of our creativity. Jesus told us that we need to come to the Father and seek the Father's face. God is your deep source, the creative source of your being. "Hence you are in touch with Him, creativity will flow through you. "Out of your bell shall flow rivers of living waters", Jesus told us. God is spirit and it is the spirit that gives life, which empowers you to prosper and excel forward.

## God is the source of our creativity

So many of us call Him God, we call Him God and He is God and He is Lord; however how many of us call Him Papa. What a difference in awareness comes when you begin to relate to God as Papa, the One that Paul said that the spirit within us cries Aba father (Papa God). When you come to the source Himself, you quickly discover things that you would not know before. He is your deep source and if you walk with Him, you shall not walk in darkness, but have the light of day". Jesus told us.

## God is Time

God takes is time, "*Time I am; I have come to engage all beings*". One aspect of God is time. "*Time is the maker and the destroyer of all things*" with the advancement of technology we come to expect quick answers to everything and we tend to forget that God takes His time. When Adam failed God began the work of restoration and redemption to bring forth the promised Messiah. He took God four thousands years between the fall of Adam and the conception of Jesus. God is seating in eternity, He is not in a rush; He takes His time.

## Accelerated Pace of Living

Even though we live in an age of rapid acceleration and unprecedented changes; we really can slow down to the speed of life. The reason why it is important for you to slow down is because when you learn [The Unforced Rhythms of Grace](#), you will start seeing things that are getting in the way of your progress and you will be able by slowing down to the speed of life, avert certain dangers and certain problems and be alert to opportunities that you would have missed had you not slow down. And when you slow down to the speed of life you become much more aware of everything in your current reality. Because it is the things in your current reality that you are not aware that is creating the gap that is preventing you to your desired reality. Simple awareness will literally get you closer to the outcome you desire to achieve because of the desires that God placed in your heart and do it effortlessly. It is not a labor; it is not a striving, it is a relax atmosphere working with Jesus. His yoke is easy and His burden is light. It is not really a burden because it is work that you are doing from inside out.

By slowing down to the speed of life; you are able to avert certain danger that you would otherwise miss if you were living at an accelerated pace of living.

## The Learning Cycles

The learning cycles are part of life so much so that everything happens in creation in cycle. Your life moves in types of cycles or circles; when you are on top, everything is going well and you think that they will last forever, but as it is with the waves of the ocean, they come in and out. There is always a down turn when they will come down. The unforced rhythms of grace help you learn how to function with the ups and the downs of the cycles of life. There is a rhythm in the cycle; you must learn the rhythm. When you are in the downside of the cycle, it is not time to tackle new things; it is time to reflect on what wants to emerge; it is time to reflect on what you done now and what wants to emerge in the next season; it is time to hear what can be, it is time to discover a new aspect of the gift that lies within you. So the learning cycle requires deep observation

of the challenges that you face in your current reality and deep reflection and out of the reflection you then can take lasting action. *“Be still and know that I am God”*

Suspend your judgment; don't question why you are not farther along. Peace helps you manage your expectation and have the confidence to hold on to the promises of God. If God said it; He will bring it to pass. God makes all things beautiful in His time. We need to deepen our relationship with God, move to a higher level of awareness where you know that God is your father and can actually call Him Papa.

There is a junction in the routines of life; you must learn how to function in the junction of life. A junction is a point where you are making a change. A junction is a spiritual place.

## **What do we want?**

We want to be about discovering what wants to emerge in our lives. One of the attributes of the Holy Spirit that Jesus taught us in John 16 is that He will reveal to us what are to come in our lives. He is not only wants to reveal to us prophetic things in God's time clock, He is talking about personal things in your life. There are things that God wants to reveal to you your future about what wants to emerge in the next chapter in your life, in the next season in your life.

## **Take time to reflect**

Then as you take time to deeply reflect and wait for the Father, whose good pleasure it, is to give you the kingdom. You will begin to see thing emerge from your spirit that you have a passion for, that you have a desire for, may be that you never thought about, may be you think that this set back is the worst thing that can happen, may be that set back caused you to take a step back and reflect so that you can make a comeback and begin to pursuit something without that hindrance. May the setback was revealing the blind spot in your current reality that is preventing you from bridging the gap. So that blind spot hinders you from moving with the unforced rhythms of grace; so life wants to unfold, the spirit has a journey that you are on and the spirit wants it to unfold in a cadence.

We are biological organism and biological creatures are constantly changing therefore solution for living organism has to be constantly changing. It is a deep learning process and learning process is very important

## **Where do we start?**

The learning cycle requires deep observation and deep reflection of the challenges that you face in your current reality which means be still and know that I am God". Out of deep reflection you can then take lasting action.

Should you questioned yourself and ask A\_ “Should I not be farther along by now, should I have done this, etc. those type of thoughts patterns are the very things that preventing you from being farther along. Because you haven't suspended your judgments of what was suppose to happen in this season in your life; you haven't come to a place of peace where you can manage your expectations and still confidently hold on to the promises of God for your life.

## **Learning the Processes of God**

It is very important that you learn the processes of God because the learning process lead to deep changes. Until you learn the processes of God there is a deep change that takes place transformational change that comes when you embrace the learning process. “Man does not live by bread alone rather e lives by every word that proceeds out of the mouth of God”. There is a proceeding word that is spoken over your life by God the Father and that proceeding word unfold in its own accord. And as you corporate with the word by the Spirit, by the rhythms of grace things begin to progress, because process lead to progress and progress leads to promise.

For the believer destiny is a dance between the believer and God, between you and God where you allow God to take the lead. However it does require that you move with Him and that you work with Him and that you follow Him.

This is just like Synergy an aspect of how to activate the favor of God. Christ lives in the center of your being in the new creation and so rather than being subject to external forces, pressures, manipulations, the expectations of others, the shoulds, the oughts and musts that keep other people happy with you. You need to discard that way of living altogether because you are living to please people rather than to please the Father. Because when you are living to please people, you are living from the outside in and not from the inside out. When you are living to please the Father, you are living from that deep place inside of you where God Almighty dwells, because you are the temple of God.

The indwelling Spirit as it related to [The Unforced Rhythms of Grace](#) enable you to approach life in a very healthy way, giving you a sense of self control and self mastery. According to Galatians, the fruit of the spirit is self control self mastery, so the spirit enables you to have self control and self mastery. Why is that important you may ask it is because that you may know that you are capable of influencing the outcomes you obtain as you seek to bridge the gap between your current reality and your desired reality? It is important that you have been processed and sufficiently by the spirit of God through the word of God that you develop a healthy sense of direction for your life by the principle of the word and the witness of the spirit. Coming to a place of healthy principle of living and witness of the spirit brings great joy. Because righteousness, peace and joy in the Holy Ghost are what the kingdom is all about.

## **Spiritual Guidance**

Lots of time we claim every inner impression and every single thing that we get as a word from God. You will be unstable if you go that way. We need to be grounded in the word of God. We have a sure word of prophecy, we need to be grounded in the written word and let the spirit witness to the written word and learn how to grow in wisdom and statutes and favor with God and with people.

Because there needs to be a certain amount of competence if you need to bridge the gap between your current reality and your desired reality that you arrived at because you have taken personal responsibility for the decisions you made and the outcomes you got. Those who seek to blame others for their situations in life never move forward and resist the unforced rhythms of grace because they choose to see themselves as victims. They play in the hands of the powers of darkness and it becomes a self fulfilling prophecy. They give away their power and they experience oppression and limitation. This is not God's way of living, healthy living, abundant living. It is important to have a sane estimate and appraisal of your gift and calling, of competence and your abilities.

Just listen to this; I cannot be someone else. Even if I want to and if I don't take time to discover who I am, trying to be somebody else; I will never know who I am. There are things that you are built to do be and do and if you are going to close the gap between your current reality and your desired reality, you have to get in touch with a sane appraisal and estimate of your gifts. You are gifted, you are capable, you are competent, and you are skilful in your area of expertise. You can have it all, but you cannot have it all at once. You cannot be everybody else; you are you that God intended you to be. You have to have a sense of capacity in order to produce specific level of performance that exercise influence over the events of your life.

## **Why Adversity Comes?**

You must know your capacity and your responsibility; you know your capability going through the process. To be confident, you have to go through the process. Adversity does not come from God to destroy you; adversity comes to prove your capability and your

competency. If you learn the unforced rhythms of grace, you will be able to take on your challenges and adversaries. When you doubt your capabilities, you tend to shy away from difficult tasks, because you feel threatened by them. The result of that is that you end up having weak and feeble commitments of the future and the goals that are parts of your assignment.

## What God wants for you?

God's intention is for you to be far from weak and feeble. God wants you to learn the unforced rhythms of grace so that you can close the gap between your current reality and your desired reality. We are not to dwell on our obstacles. "Let the weak say that I am strong". We are to dwell on the Father. Some mountains may come; we either move it or God will melt it away. Don't focus on the mountain, but rather focus on the purpose, the desire, the promise. Don't even focus on the gap; you are going to take a leap of faith and discover that the things that God send your way, that adversity enlarges your faith and close the gap and brings you from where you are to where you desire to be, more accurately from where you are to where God wants you to be.

The unforced rhythms of grace are moving in cadence and alignment with heaven in the beating of your spiritual heart. Get in touch with Christ in you, the hope of glory; yield to the Holy Spirit and watch what happens to the gap between where you are and where you want to be.

## An Invitation from Jesus

Jesus is inviting us to work with Him and walk with Him; that is synergy. "Work with Me and walk with Me and you will recover your life. Learn how I do it effortlessly, take your rest in me, learn the unfold rhythms of grace. But in order for us to walk with Jesus we must know who He is. The more we meditate on Him, His person, His mission, His relationship with us, the more we become like Him. Here is a brief synopsis of Jesus, everything we need to know about Him in a nutshell.

## Jesus 101

By beholding Jesus in His fullness we too become whole. We need to see Jesus in all of His glory, with His four faces as represented by the Cherubim which is in the middle of the Throne in John's Revelation. The creature which is in the middle of the throne is a Cherub and it has four faces and each face represents a nature of Jesus as depicted in the four gospels. In Matthew, He is the Ox the servant, in Mark He is Lion the protector, in Luke He is Man, the son of man and in John He is the Eagle, the overseer. The four gospel of the New Testament is an album of Jesus; they depict the four nature of Jesus. Everything in the World is speaking of destruction, but in Jesus we find peace. When we see Jesus in all of His glory, something happens to us. When we study His fullness, we become the leaders that He created to be. As we meditate on Him, we are consuming His nature; He then becomes food for our soul. We become what we eat, we take on His nature, His righteousness when we feed on Him..

God only moves by righteousness, this is what pleases God, we become righteous by taking on the righteous nature of Jesus. God only releases His blessing when He is happy, when He is well please. Righteousness is the only thing that pleases God. The aim of the universe is perfection, God aim is for us to be righteous as He is. Righteousness is interchangeable with perfection; God seeks righteousness and perfection. *"Therefore be ye as perfect as Thy father in heaven"*.

Jesus is everything we need to be; He is our filters before our prayers reach God. He will remove all unnecessary stuffs and contaminants before our prayers get to God. He is the key to our relationship with God. Without Him, there is no possible way that God can get to us and have a relationship. Did you know that Jesus is the key that makes God works for you? Therefore makes Jesus part of your life and God will answer you. The more we focus on Him, the more the fruit of the spirit flow in our lives. The blessing of God is for the righteous. We are righteous not by our obedience, but by the obedience of Jesus to go

to the cross to become our Christ. If you focus on Jesus' obedience to God, God will punish your enemies. When we focus on the obedience of Jesus to God, this captivates our thoughts. It is that knowledge that brings our thoughts captive to Christ. When you see Jesus as the great I am; He becomes all that you need. There is a knower in you and when you are seeking the truth, when you hear it, you know that it is truth in your knower.

What is your desired reality? Where do you want to be, make a list and be honest?

The acronym SEDD refers to the four enemies of the heart that Jesus conquered: Sorrow, Doubt, Fear and Discouragement. He set the pace for us, He set the pattern for us to be and follow. God does not see our sin, because we are hidden in Christ and who is the Christ. Jesus is the Christ and in Him is the power for our salvation. Jesus told us to seek God face, calling God Papa is a higher level of awareness of our relationship with God. When you behold the glory of God, when you spend time in His presence, you are been transformed. God dwell in the midst of His people. God meets you in the midst of your folly; in all your way acknowledge Him. For the believer destiny is a dance between you and God and when you allow God to take the lead, you will fulfill your destiny. Christ lives in the center of your being in the new you; you are a new creation in Christ. Eternity is in your heart and in your heart are the highways to Zion. God is your deep source, the hope of glory lives within you by the agency of the Holy Spirit. Even if you are not fully conscious of your assignment in life, if you yield to the prompting of the Holy Spirit, things will come your way. There is a flow in life and that flow is a part of the working of God in our lives. As you begin to work with the spirit of God, things will begin to come your way that would never come your way before. When you learn to flow with the spirit of God, you will start seeing the things that are getting in your way of progress. God is the solution to all of our problems; therefore find that which is essential, seek God first. Jesus is the word; there is a word for everything that you are confronted. *"If you dwell in My word, Me and My father we will come in and dwell with you"*; you will find the spirit if you dwell in the word of God; if you focus your eyes on Jesus. Meditate on Him. *"It is the spirit that gives life"*; I is not by might or power says the Lord, but by My spirit. It is God that does the work in you. Me and My father are one Jesus said; this statement is true. *"My God shall supply all of your needs by Christ Jesus"*. I will give you the key to the kingdom; whatsoever you bind on earth shall be bind in heaven and vice versa. Jesus is the key.
