What Moves Us: it is all about what moves us, either consciously or subconsciously

Human Motivation: we are moved by impulses or we can chose deliberately to move, these two things are happening constantly in our lives. In my writings, I speak a great deal about the impulses that move us subconsciously not because I championed the darkness of this world, but because I want to expose it. I want to bring to light the works of darkness so that we may know what they are and who is behind them. I want to expose the works of darkness because the impulses that drive us to do things despite of ourselves are happening in our subconscious. That is why they are called the darkness of this world. We take some of our behaviors for granted because we have no control over them. We said that they are inherently human. I must tell you that they are not; they are the works of the devil, the darkness of this world. Our only remedy against them is for us to seek God deliberately, do what Jesus prescribed us to do. His precepts are the antidote against the subconscious works of the devil. We are poisoned; our subconscious mind is not our own, only the quickening of the Holly spirit can help us live a conscious life. The only way for us to find the Holly Spirit is for us to live a righteous life and the only way to live a righteous life is for us to fallow the precepts prescribed by Jesus in His teachings. When applied to our daily lives these precepts become the antidote to the kingdom of darkness, the subconscious works of the devil. There is a struggle going on, there is a war going on in our mind between the forces that drive human existence. The impulses to fallow the disposition of the body and the conscious effort that we must make to fallow the guidelines set by God to guide our spirit, oppose the flesh. One of which you don't need to be aware of and the other you must me conscious, deliberately chosen. The struggle is between the conscious and the subconscious, the kingdom of light against the kingdom of darkness. The choice is yours, one you have no awareness of what is going on and the other you do. **God is trying to make you a conscious being.** The antidote to the subconscious life is to be found in the precepts that Christ left for us to fallow. If you do them, applied them in your daily lives you are guaranteed to be quickened by the spirit. *"If you dwell in my word, Med and My Father we will come in and dwell with you"*. That is the guarantee that we have if we fallow the guidelines set by God to guide our spirit. **It is all about what moves us;** that is what life is all about. Life is action, movements, what moves you, human motivation. However it is important to know that the only way for us to fight the subconscious impulses that drive us is for us to take the antidote against this poison. We have been poisoned, corrupted by the devil, except we fallow Christ there is no cure. He is the antidote. Jesus is the way; His precepts shall be our life style, a life style that guarantees us an increase in the spirit.

Note:

Here are the precepts Jesus left for us to follow:

- ❖ 1_Love God with all of your heart
- ❖ 2_Do unto others as you would like them do unto you
- ❖ 3_Be the Good Samaritan, give to others in needs
- ❖ 4_Forgives those that trespass against you seven time seven or as much necessary
- ❖ 5_Turn the other cheek, look for alternatives to resolve conflicts, avoid heads collisions
- ❖ 7_Embrace your humanity, the weaknesses and the short comings of your fellow human beings, that is take up your cross
- ❖ 8_Deny your self, give the ego, stop boasting, using your position to negate your brother, that is to deny the process by which you arrive at your self assertion, stop consuming the fruit of the knowledge of good and evil

Looking for you to set sail to new heights and new possibilities with Christ
