

Invitation to Leadership

God is inviting us to be an influence in the world

Getting you into convergence: Part II

■ Getting you into convergence from the series “*The Power of Convergence*”, by Dr. Lance Wallnau and Dr. Mark Chironna, commented and illustrated by Zbob. Learning the ways of God, the ways of the spirit so that God can exponentially increase your capacity to govern, helping you close the gap that separates you between your current reality and your desired reality. Teaching you how to accept the proceeding word of God over your life, helping you find the structure that has been prepared for you in God.

What is Synergy; the Exponential Factor?

■ *“There is power in agreement” Where two or three are gathered in My name, there I shall be also*”. There is a void, an emptiness that comes, you have no traction, no will to act, and you cannot act with force, deliberately with intent simply because you have no one to agree with you. Well two are better than one and where two are in agreement there is a third factor that comes into play. Two can do more than anyone can do separate; that is synergy. You need to enter in agreement with God so that He can synergize you and exponentially increases your capacity to govern.

There is a Gap

■ There is a gap that separates you between where you are and where you want to be. God is inviting you to walk with Him and work with Him and He will show you how He does things. His ways are not hard or difficult, let Him guides you and He will show you how to bridge the gap between your current reality and your desired reality. Synergy is learning the ways of God, how He operates universally and individually to bring you maximum result.

Seating with God in High Places?

■ If you are with Him, you are seated in heavenly places. God therefore talks to you on the basis of where you start, from heaven seating with Him. When you are with Him, you are vibrating at higher frequency, faster speed,; He wants you to slowdown to the speed of life, de-accelerate yourself to the speed of life so that you no longer striving, and that you are effortlessly doing things by grace.

You need to be Processed

■ You will have to be processed many times over to get to where you are going. Each time you are trying to take a new position, there will be those who challenge your right to see if you are qualified to take that position. After you have gone through a successful process that is trying to disqualify you for your position; you are ready. Don't worry; believe in God that He will see you through your process. Real transformation is only possible through faith by grace and not by effort.

■ You must choose to believe what God says about you and not stuck to where you are. God sees you from the future and from His perspective you look better than you look right now.

Where do you start?

■ God starts with you from your future, from the finish work and He talks to your current reality. You have to be processed to get there, but if you work with Him, He will see you through. God has a plan for you (since the foundation of the world); it is a good plan, better than any plan that you can come up with. There is a process that God releases in your life when He speaks over your life. The prophetic word helps you cooperate with the ways of God, the ways of the spirit. You need to know what God's word says over you and in you.

Receiving the Proceeding Word

■ You need to learn how to receive the proceeding word of God. A prophetic word is like a currency, (money); you can put it in the bank or use it as cash. God reveals the secrets of the heart to you; the proceeding word gives you right to your future. You can move in the dominion of power with effortless ease; if you don't have to walk with the sinful nature that produces thorns and thistles.

You need a Structure

■ Transformational change at any level requires a structure; the structure has already done for you. If God is guiding you; you are no longer the same person you used to be, you are a new creation. ***“God is taken back humanity from the devil through Christ and give it back to us; if a man is in Christ, He is a new creation”***. God is your new manager; you have a new management in Christ; you have a structural change.

Our Message

■ You are no different than the rest before you start walking with God; the old man in you is the entire fallen humanity, not you. God talks to you from where He sees you in Him. Don't curse your present reality; don't try to bridge the gap, just meet God where He is and the gap between you and where you want to be will no longer be an issue.

Don't throw away the Proceeding Word

■ Because now you are not throwing away the proceeding word; you will see result. When you start agreeing with God, how He sees you; the lines will fall in the right places. Upgrade your thinking to think about God the way God thinks about you. It is time to let go of your old thinking. It is time to dump the old way you used to see yourself. Because the proceeding word over your life is currency and when you start acting based on that word; you start bringing opportunities.

Start with What God says you are

■ Learn the way of the spirit, the ways of God to help you bridge the gap. We all have issues; they are unfinished businesses that are there keeping us from recognize the gap. You must know that there is a gap that separates you with what you want; you must learn to recognize that gap. Hence you recognize that gap and learn how to work with God; the way of God, the way of the spirit; the gap closes. Walk with God and work with God and learn from God and watch how He does things and you will close the gap.

The Favor of God is Synergy

■ Synergy is the favor of the Holy Spirit of God that causes us to do more than we could do on our own. Synergy is the rhythm of the Holy Spirit of God. Don't try to manipulate circumstances to close the gap; you need to move by grace, the synergy of the Holy Spirit of God. The gap between where you are and where you want to be seems to be insurmountable, impossible that you are trying to manipulate circumstances and situations and force things to happen that in actual fact frustrate the grace of God in your lives and sabotage your ability to get the highest and the best outcomes which God wills for you.

God Good Pleasure

■ Because it is the Father good pleasure to give us the kingdom and God wants to give you the desires of your heart, the reason why He created you. Learning the ways of God, the ways of the spirit of God in many ways is like seating at the seashore at the ocean of God's love and grace, learning how to observe the spirit moves in your life; the ways of the spirit, His process can bring you in alignment with this prayer: "*Thy will be done, thy kingdom comes*". When you discover the flow of the spirit, you learn to do more with less.

Favor closes the Gap

■ When the favor of God is activated in your life; the gap between your current reality and your desired reality closes. There are things that want to unfold in your life, you need to take the posture that indeed God wants certain things to unfold in your life. Don't try to figure out what the purpose of God has for your life; you just have to acknowledge that you have one. Simply yield to the flow of the spirit, acknowledge to the Father that He has a purpose for you and acknowledge Him in all your way. God lines up things for us as we acknowledge Him.

There is Creative Potential Inside of You

■ Acknowledge your creative capacity is very important; in order to acknowledge your creative capacity, what you bring forth into the world as your gift back to God that cannot be brought by anyone else. You have to enhance your power of observation.

The Blind Spot in your Life

■ Overcoming the blind spot requires starting to pay attention to those aspects of your current reality that you are trying to filtering out. Everybody has blind spots but we are not supposed to stay stuck to them. If we are going to move forward, close the gap between our current reality and our desired reality and yield to the ways of the spirit we tend to see what we look for and what we believe is there. It is essential to cooperate with the spirit of God because He wants to enhance our observational skills; that again is an aspect of the ways of the spirit of God that wants to inspire us.

When you practice seeing more efficiently, your blind spots disappear.

What you fail to See

■ What are the things right now that you are missing that God wants you to see in your current reality? When you practice seeing more efficiently, your blind spots diminish and when your blind spots diminish, you understand God better and because of that you understand the people that God connect you with better. This is important because you cannot get into your future without God and other people. Even if you have a great dream, God has included other people in the fulfillment of that dream. Therefore when you want to understand, when you practice seeing effectively, the blind spots diminish and then you understand more clearly, you see your friends and those God put in your life better; you also see your enemies better. This is very important because your enemies side swap you from your blind spot.

Other Benefits

■ Also when you practice seeing more effectively, you recognize skillful, competent and successful behavior better. Why this is important you may ask? This is important because God did not create you to be a failure. God created you to be a competent, capable and extraordinary successful humans being. This is part of the abundant life that God promised to you hence you are working under Him.

The Learning Cycle

■ There is a deep change that comes when you learn to embrace the learning process. The blind spot in your life is what is creating the gap.

Working with God

■ Learn the ways of God, how God works in your life; the way the spirit of God affects you. God does not deal with us all in the same way; He approaches each one of us individually. In this segment you will learn how to identify the particular way God deals with you; you will learn about Synergy; you will learn about the blind spots in your life that continued to sabotage your progress in life; bridging the gap between where you are and where you want to be.

Accelerate Living

■ We are entering in an age of accelerate living; the way we leave one situation is the way we enter another. So if we have unfinished business in one situation and take it with us into another situation, we end up fragmented. Life is moving at such a speed that we have no time to fully process one period of learning before we enter into another. Period of learning are many because knowledge has increased at an accelerated pace; it become impossible for us to stand still.

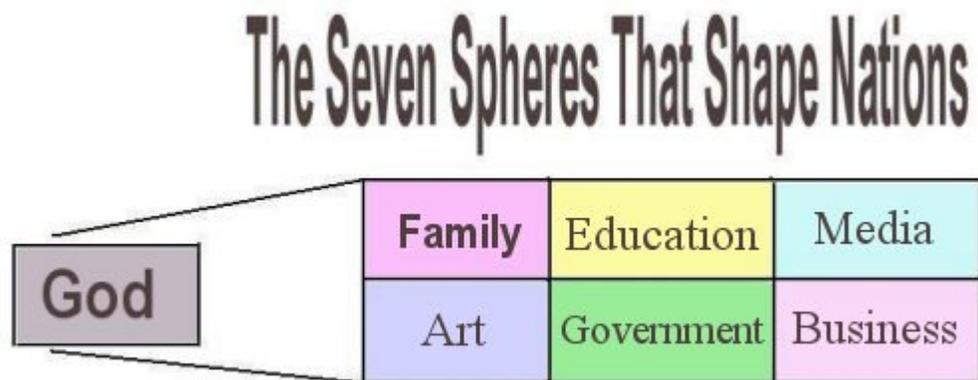

What is the Future?

■ By God grace we will change Haiti and beyond. We will set precedence for other Third World Countries to follow. This we can do if we get into convergence and come together as a unit. Learn the unseen rhythms of grace so that God can synergize us and exponentially increases our capacity to lead and govern.

Know your Sphere

■ The seven spheres that shape nations, which one are you assign to? It does not matter what sphere you are assigned to, hence you start walking with God, work with God, and learn from Him, you will begin to do things effortlessly. You discern your sphere by the intuitive desire that you are drawn to manifest. Which means that what God has put in your heart to do is the key and the clue to the sphere that you are ultimately call to manifest your glory in.

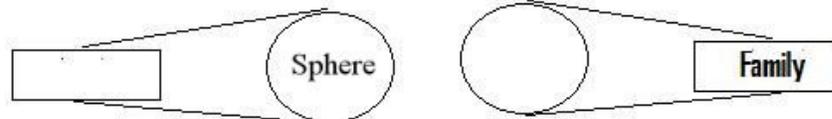

What are the Spheres?

The Seven Spheres of Influence

- 7_ Religious Sphere: **God**: The Church, Religion, Faith
- 6_ Family Sphere, parents shaping children
- 5_ Education Sphere: Teaching children, shaping their mind
- 4_ Government Sphere: Write the law, the support system
- 3_ Media Sphere, spin machine, Talk show, Entertainment
- 2_ Art: Songs, things we laugh
- 1_ Business, Finance, Technology

Choose your Sphere

Invitation to Lead

God is inviting us to engage the world in dialogue

Making an Impact

You cannot impact the culture if you are not willing to learn from God.

Have Faith in God?

■ Faith in God means trusting God at His word that what He says will happen and is a sure thing. Faith is believing in God even when you don't see how. Faith is repeating to God in Bad Times what He said to you in Good Times. You have to speak what God said regardless of your feelings. If you trust in God's words, He will deal with your circumstances.

Obeying God to the Fullest

■ When you obey God to the fullest; you don't do part of what He said; you do all without questioned. **“Ye of little faith”** Abraham the father of faith, who against hope believed even when he did not see how. You must learn to see what God sees and believe in your soul. Faith is righteousness when you believe in God's words. You have to give God something to work with; you have to give Him back His word.

Develop the Spirit of Faith

■ He does not matter how big the task may be; it is a done deal; believe in God and in His word. Time does not matter with God, when He gives us a promise; it is a done deal. He will never leave you nor forsake you is a promise from God, demonstrated on the cross with Jesus; though Jesus did not hear God at the cross; He had enough faith to believe God promise to Him that he will raise Him up from the dead. God gives you His word and enough love to go with it so that in your wilderness, in your valley when you may

not hear Him, still you must trust His word and His love. Jesus did not hear God in the wilderness; He was using the word of God to defeat the devil.

The Learning Cycle

■ Your present reality is not necessary your desired reality; there is a gap separating your present reality with your desired reality. Learning takes place in the gap; God is coaching you while you are in the gap. Our desires need to be in alignment with our assignments. Don't envy those who have; they paid a price or they inherit what they have. You too can have what they have; all of it except you may not get it all at once; there is a process; one step at a time, from victory to victory. You cannot handle it all at once, because hence you take territories from your enemies, means that you have more enemies to content with. God is taken territories from the enemy and give them to you; hence you take territory from your enemy; you must be prepared to face that enemy.

How do you Face your Enemy?

■ You must be prepared to learn the unseen rhythms of grace, learn to corporate with them so that you can close the gap between where you are and where you want to be. Your breakthrough must be able to be sustained or you may go back the same way you started. You need to learn how to listen to your coach, God is your real coach; He will help you close the gap; helping you discover your true nature. Agree with Him the way He sees you so that you can take hold of your inheritance in Christ. God through Christ is giving you your inheritance.

What is your inheritance?

■ Inheritance is different than salvation; you must walk into your inheritance; this means that you must close the gap that separates your present reality with the reality that you inherit. To do that you must learn the unseen rhythms of God so by grace you can enter into your inheritance. You cannot do it on your own, therefore God can; this entails you learn the unseen rhythms of grace; how the spirit of God operates so that you can corporate with God to help you.

Asking you the Question?

■ Are you tired, worn out, burn out on religion; walk with God, work with God, watch how He does it, learn the unseen rhythms of grace; God will not lay anything heavy on you; keep company with God and you will learn to live freely without burden.

Let God arise!

■ God is waiting for you to allow Him to move through you; you are not pressured to make God part of your life. God will not impose on you. You are not looking to have God move from without; imposing a code of conduct upon you. The law can never makes you perfect; the harder you try to live by the rules; the less likely you will succeed.

God affirms you

■ You were not built to be a negative; you were built by love, by affirmation. The more you try to do what you are not able to do; the more you will do it; the more you will focus on it; the more power it has over you. Because what you focus on, grows; your attention makes it grow. *“Attention is what makes the world”*. The statement “Do not” at a subconscious level does not translate to the nature of man; the way you are. Your spirit in his general intention was never given with a negative. This is why negation had such a devastating effect on humanity. Negation is a tool, an instrument in the hands of the devil to maintain this system of things.

The consequences of Negation

■ To establish this system of things, to create disparities in the achievements between blacks and whites, blacks were negated so that the difference in their achievements can be sharper. Without these disparities there is no adversarial system; no difference to resort between the two races.

Something Worth Mentioning

■ The more you try to do what you are not able to do; the more you will do it; the more you focus on it, the more power it has over you, because what you focus on grows. You will not do something that does not translate on an unconscious level the way you think; because your spirit in its original intention was never given a

negative; you were never created to be a negative. You unconscious does not process “not”. So when you say to yourself you will “**not**” do something, the unconscious read it as a positive. Because what you give attention to, becomes reality.

You need a Key

■ The unseen rhythms of grace need to be learned because they are the key, not simply to get you from where you are to where you want to be, but to get there while increasing in wisdom, favor and statute. In other words it becomes a learning opportunity where grace grows, enlarge, increases and expend in ways that you could never done by your own puny self effort.; self will is mall, petty; your spirit is willing; it is your flesh that is weak. You may have good intention, but your flesh may not go along with you. It is no longer in alignment with your spirit; you must forcefully make it submit to your will.

God gives us the Power

■ God gives us the power to be like Him, sons after a father. Christ gives you the power to become son; you are not just being; you are both being and becoming at the same time. Fifty percent right now is what you are and the other fifty is what you are imagining you will be. God does not do your imagining for you, which means that you must know how to use your personal power to imagine what is in line with His assignment for you. Your becoming process will cause your corporation with the Holly Spirit of God to be conformed to the image of Christ.

Why God gives you Personal Power

■ You have been given personal power so that you can walk as He walks, act as He acted. So when you understand that; you begin to take responsibility for everything you think, say, do and feel. When you know that you have personal power, you stop blaming other people for your emotions. Until you can detach yourself from your emotion; you are giving away your personal power. Until you can detach from your emotion; you will be ruled by fear; this in turn gives away your personal power.

■ Stop Wasting your Personal Power

Most of the trouble we encounter in our personal journey and unable to solve is because we have given away our personal power. Therefore when we give away our personal power the gap does not get smaller but wider. You need to become an observer of human

nature, both in its worst moments and its best moments. You need to key in on those who are most modeling what you desire to emerge in your life and take a step back to watch how they walk.

Be a keen Observer like John the Baptiste

■ As John keenly observed Jesus walked, carried Himself; you too must do the same; He is a model that we must pattern ourselves after. You will learn more by watching than by asking a tone of questions. As John watched Jesus walked; he discovered by His walk that He was the sacrificial Lamb of God, the one that will be used a model for us all. You must watch how Jesus walk and let His life indented its impression on you.

Who is a Christian?

■ Christianity is not about how many verses of the bible you can memorize and quote to impress people, but how much word you have in you is the question; how much of the Word Himself you allowed to be impressed on your soul and spirit. How much of Him is seen in you, because the more He impresses Himself on you, the more the gap closes. It is all about closing the gap. Jesus is the word of God made flesh.

God Timing: It is all about time

■ Everything is time; Jesus came in the fullness of time; God is not in rush to get His goal and purpose accomplish. It takes four thousands of years for the first prophecy to accomplish. God has a plan and He is moving by the unseen rhythms of grace. If Jesus is going to be our coach, we need to be led by the spirit and not by expectation of the crowd. You need not be driven by the expectation of the crowd; you need to be led by the spirit of God; He moves on His term.

What is the Gap?

■ The gap is the distance as it is in heaven as so on earth; that is the gap between what God wills and wishes in heaven and what manifests in the earth. That gap is large and wide for many of us that it seems impossible for their prayers and behaviors to even close the gap here and there

The Power of Observation: how Jesus Walked

■ Study the way people carries themselves; how Jesus walked the earth. We cannot walk in His shoe, copying Him, unless we study Him; observe how He walked in life. He does not do things to satisfy our whims; He does things according to a rhythm and a cadence that is beyond Him. All He is; is the vessel through which comes our challenge.

What is our Biggest Challenge or Crisis?

■ We all want to know by what means we must use or going to use to do it; close the gap, overcome the disparities that separate us, etc. everything else. Because we live in a day and an hour that the biggest crisis is a crisis of means. In other words the crisis that we are facing in this twenty first century is a crisis of means. We are all asking the question why? Where was God trough my crisis? We have to observe how He walks.

A New Order

■ Jesus came to bring a whole new order of humanity, not just to the Jews. Jesus enter the world to usher a new order, walk with Him, work with Him; learn the unseen rhythms of grace and let Him show you what God's intention ultimately is for humanity. Jesus not only embodies the new order but in Him personal power and positional power are the same.

Our Promotion Comes from God

■ Some of us want to get promoted and when we are promoted we act like dictators; the folks we used to be friendly now we start bossing around. Most dictators don't start as dictators; they simply succumb to the power of their position. Who do you think you are that you can because of your promotion decide to change your personality? What got promoted was not that ugly person who is now snapping at every body; what get you promoted is that you were compliant, easy going.

■ Something happen, there is a gap now between who you are and who you were called to be and the sad thing is that you are in the position and you are not capable

Why you need to know Jesus?

■ You need to know Jesus because He came to bridge the gap so that you would be the light of the world.

Take a Rest

■ The rest of God is dynamic and not rest at all; it is doing it with God effortlessly. The unseen rhythms of grace make it possible for you to do things effortlessly. Where God wants you to be is where you want to be because God built you for a specific purpose, a specific way for a specific thing. You need to realize that God built you for what He wants. You are going to want what He wants because He did not create you to be miserable. You are not going to say oh God I don't want to do this because that would not be a true representation of God. When you want something; it is because God put it in your heart the first place. If you don't like what you are doing, you are not going to be much of a light for the nations. Rather than immerse in the Holy Spirit of God, people are going to think that you immerse yourself in vinegar and lemon juice.

Honor God for your Purpose

■ You have to honor the fact that God has already put purpose in you and you can yield the Unseen Rhythms of life. Since you cannot manipulate them, you can only cooperate with them; they are part of the sovereignty of God. As you yield to them and begin to move with the spirit; things begin to come your way that would never come your way before. We all have to go to the source of creativity; come to God the Father and seek His face.

What Happen when you come to God?

■ When you come to God the source Himself; you can quickly discover things you would know before. We live in a life of instance, things happen at the speed of light. Life has its own speed; you must operate at that speed to see reality as it is.

Slowdown to the Speed of Life

■ When you learn the Unseen Rhythms of Grace, the ways of the Spirit; the way of God, you will start seeing the things that are getting in the way of your progress and you will be able by slowing down to the speed of life, avert certain danger and certain problems and be alert to the opportunity you would have missed had you not slow down. When you slow down to the speed of life; you become much more aware of everything in your current reality.

What do you Miss the most?

■ It is the things in your current reality that you are not aware of that is creating the gap preventing you from getting your deserved reality. So simple awareness will literally brings you closer to the outcomes you desire to achieve what God intent you to achieve, because of the desires He places in your heart. You desire needs to be in alignment with your assignment.

The Power of Agreement

■ Life on earth is an agreement; an agreement between you and God, between you and yourself and between you and your fellow human beings. You need agreement for everything. “*Except two agree; they cannot work together*”. Sometimes God will give you a witness so that even if you disagree with Him; you can still agree to what is. “*The testimony of the Lord is sure, making wise the simple*”. You cannot deny the truth that God put before you or you will be out of order. So you need to agree with God or you end up in a world of your own making, excluding every body else. So if you cannot perceive reality as it is; you are put aside and label as crazy, insane. God is truth, His word is established as truth; He is what is; falsehood is what seems to be and is not and shall pass away.

Who are you?

■ You are both being and becoming; if perfection is the ultimate of life and if we ought to be perfect as God is perfect; if all beings are in a state of becoming, then I cannot know for sure what I am until God reveals to me what I am. I know for sure what I am not, but never with certainty what I am. I am what I am; this is all I can say. Therefore, you are who you are as God calls you to be. Moses did not know that he was a leader until God called him to lead His people out of Egypt. Peter did not know that he will be the Roc until Jesus revealed his future to him. Here is your future, walk in it, God will say to you; obey Him, don't hesitate. "*In righteousness thou shall be established*".

Out touchtone verse

■ **I can't, therefore God must** is the cornerstone of this series. "*His strength is revealed trough our weaknesses*". This is the purpose of covenant; God takes pleasure in making strong and in turn we glorify His name. His greatest pleasure is to be righteous and just. He has no reservation when it comes to fulfill our needs, provides for us, because this is all He asked us in return to be righteous as He is. "*If you love Me, obey My commandments*"; this is our proof of love for God, to do what He says.

God wants to raise champions

Note: About the authors

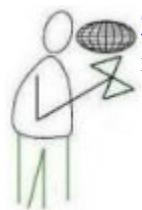

[Dr. Lane Wallnau](#) is a dynamic teacher with a unique and powerful gift for imparting the Word of God. He shares his lifetime research in the field of organizational and personal transformation. Fathering, mentoring and facilitating others to engage the work of God so that the glory of God can be manifested in the earth

[Dr. Mark Chironna](#) is an expert in personal mastery and life balance. He is also a life coach; together him and Dr. Wallnau introduced “[The Power of Convergence](#)” as a tool to help people maximize their full potential, getting people to operate at peak performance, helping them understand their call, what they are anointed to do. Dr. Chironna believes in engaging the world in conversation. He introduced the concept of God as the exponential power that synergizes you, increases your potential, also helping you discover the rhythm of the Holy Spirit of God, the way of the spirit as a mean to help you close the gap that separates your current reality with your desired reality.

[Jean “Robert” Noel](#) through his website is teaching people about their possibilities in Christ, helping them understand the forces that shape human existence, the forces that restraint and keep humanity backward and the forces that propel and excel humanity forward; the forces responsible for stagnation and retardation, the true causes for racial prejudices and discrimination in the world. His website is about know knowledge and understanding, revealing truths that were hidden from us, exposing the works of darkness making ways for God’s truth to take roots in our heart. He is a true sidekick, bringing the work of God to restore leadership in The Third World.

[Zbob](#) is our sidekick, an assistant to the website, a helpful guide to illustrate ideas
