

## NEWS UPDATE

*“Attention is what makes the world”*; focus your attention on the solution and not on the problem. The more you focus on the solution, the more the problem disappears. This I learned the hard way; I was focusing on the cause and neglected the solution. The problem does not go away, just because I understand the cause; but the problem does go away when I place my attention on the solution. Jesus is the solution that God made available to solve all of our problems. We need to place our attention on Him and not on our problems.

For a long time blacks in this country were cut off out of the possibilities of this world until they start making Jesus the center of their lives. The forces of Negation were so powerful in this country that they were feeling the weights of these forces literally on them; keeping them from expressing their thoughts and feelings. They sought out for Jesus; the church became the center of their lives. They dwelled in the word of God, seeking the promises of God for their lives. *“In you and in your seed, I will bless all of the family of the earth”*. They understood that this promise include all of the family of the earth, black, white, red and yellow. They held on to this promise until it is realized in their lives. *“The blessing of God make rich and add no sorrow”*. Today, blacks are better off in this country than they were fifty or sixty years ago. Today, I am focusing my attention on the solution; we cannot blame God any longer for our problems. God sent His son to destroy the works of the devil. Affirmation is what God is doing for us. He does not condemn us; His grace is made available for us through Jesus Christ. This system of things that is running the world is of the devil. It is based on our condemnation. The devil is waiting for us to fail to obey the law of God so that he can justify his actions toward us, inflecting pain and suffering on us. Look at this world, the deliberate denial of certain people to partake in the blessing of God, to share in the abundance of this world is not of God, but part of the works of the devil.
