

Invitation to Leadership

God is inviting us to be an influence in the world

What it takes

■ For those of us who want to engage the Work (in Haiti or else where), the first thing that we need to do is take in account that we are not alone in our assignments and that our success depends on our

corporation with God. If you are going to be successful and victorious in doing the **Work** that you are called to do; you must follow the pattern of what Jesus went through in His mission. He was only victorious because He was willing to be obedient to God. God guarantees Him success only if He was willing to submit; we are no exception. Whatever He went through in His mission; His struggle deciding to go or not to go to the cross, His testing by the devil, the temptations He went through; we all must go through that process before we can be successful. If we submit to God, putting ourselves aside; God guarantees us a victory. Jesus was obedient to God even to the death; we too must be obedient if we are to be successful in our mission. You cannot do anything, change anything in a culture like Haiti until you first cast out the ruler of the house and for that you need to be under God. The only way that you can go through the process of waiting patiently and acting only at the right moment and let God has His way is for you to trust God at His word that He will give you a future and an expected end.

Mid-Heavens

■ I believe that there is an awareness in the **mid-heavens** about my assignment, your assignment and the assignments of all of our brothers and sisters (**who are trying to engage the Work**), because the moment that we decide to engage the **Work**, doing what God calls us to do, we are under attack by the devil; which means that the devil and his emissaries are aware of our assignment and they are trying to stop us from fulfilling our assignments. They live in the Mid-Heavens; this is why the devil is called the prince of the air. The principalities that rule over Haiti, the **intermediaries** that are part of the Haitian culture live in the Mid-Heavens; your Haitian identity is tied up with them. When we talk about the core, we are talking about the energy that sustains you and also collectively gives the Haitian people its identity. You may say that this energy is your essence, your raison d'être, your will to live, your libido, the seat of desire, the kundalini, the center of creativity, pure energy, pure desire, what gives human beings their motivation, the hierarchical structure of human needs and all of the names associated with that energy. You cannot have the victory in Haiti or achieve success in your assignments without God; that is a fact. This is what I am trying to make people aware of.

It is about your identity

■ At the core level Satan is taunting your identity. Whatever challenge you face, it is always about who you are. Your qualification does not necessarily come from what you have done or accomplished but the core of who you are. God makes you a new creation, gives you a new identity hence you are born again under Christ; the devil has no right to question your identity who you are and what you do.

■ When you are in your battle and you get depressed; it is because you are hitting a stronghold that is occupying by a strongman in the place that you are called to plunder and he is trying to keep you from going there. People that are going through harassment in the spirit and really trouble about where they are going; it has to do more about where you are going than where you are. You can cast out the strongman who is occupying your position in the name of Jesus; you have the authority in Him.

■ You will be stop, the enemy will try to stop you, interrupts your journey to test if you are qualified to access the level that you are about to step into; which means that you are not wrestling with your present circumstance; you are wrestling with the strongman who is occupying the sphere you are about to take possession. You must first dislodge the ruler of the house to gain the right to work in the house. Jesus did and what He did, you also can do, what He has done, you also shall do.

You will be tested on the basis of your identity!

■ The enemy will test you not on what you have accomplished or done before but at the core value of who you are? Whatever you bow the knee to on the way up the mountain, controls you when you get to the top. Whatever your sphere of assignment is, you have to be tested to see if you will not succumb to temptation. Your righteousness is of the Lord; your right, your identity, your authority to do what you are called to do is in Christ.

■ If you are trying to change Haiti, recognize first that there is a territory within you that get tested and if you can discern the enemy and get your script right and align yourself with the principles that God is going to endorse, you will succeed. You will stop the devil from keeping you achieving success in your assignment. The enemy is your circumstance, the harassment in the spirit, the temptation, things or people, whatever that you don't expect.

Are you a truly sent one?

■ Unless you are delivered from the things that will attract you in the people that you are sent to; you are not ready to be a voice to change the culture. You must be free of temptation to really be a leader.

What God wants me to do?

■ God wants me *to explain to people what they need to do achieve success in Haiti. God wants to help them deal with the intermediaries that rule Haiti.*

The Intermediaries, what are they? I don't know for sure what they are; but I know what God has done to get humanity from under them. The acceleration that other countries are experiencing is only possible because of what God has done.

I know that they have to do with the past, a very old past when man used to depend on the spirit to come upon him for revelation, for guidance. The Greek, the Egyptians, the Romans were all depends on intermediaries to guide them, except Israel, the Jewish people. God was working with them, preparing them to be an example for us to follow and today they give us Christianity or the western culture. Some remnants of the past still linger in the present and find expression in the Western culture still today, but for the majority of Westerners the intermediaries of the past are gone for ever. The devil thrives on the past, what was truth then becomes tinted and no longer serves the purpose for which it was intended. When God is no longer part of something, it becomes fair game for the devil to use.

What are they really?

Why they have so much power over the soul of a people?

Why they persist?

They are **intermediaries** of a time gone by when the spirit use to come upon man and not in man. They are aware that God is trying to free us from their influence and they will try to keep us under their grips; stopping us from moving into our destiny. This explanation does not explain what they are but what they do. The idea of **Mid-Heavens** aware of our assignments that we are speaking of is about them. These mid-heavens are where the prince of the air and the principalities that rule over the earth reside. They are aware of our assignments and they want to stop us from succeeding. The Haitian culture is woven into the intermediaries, like all other cultures that are not yet liberated. Jesus is the only intermediary between man and God, mediating our cause before God; we don't need any other intermediary that God does not

approve. The devil is taunting our identity because the core of what makes us who we are is intertwined with them. God has a massive problem in His hands, without God we can do nothing.

God has since work with a race of people, preparing them to be a pattern for the rest of humanity. Today the Western world is the result of that preparation.

He dealt harshly with them in the past, suppressing in them all tendency to depend on intermediaries to access the power God. God wants them to rely completely on Him and come boldly to the throne without intermediaries, except through Jesus. He cast out the ruler of the house so that anyone who now comes to God must go through Him. This is the new age; this is how God wants it; God wants us to access directly His power through Christ; the power to get wealth, to prosper and excel. He made provision through Christ by which the power to access God will come directly from inside of us, not from without. Today Westerners are not tided up with intermediaries as other cultures like the Greek, the Roman, the Egyptians and cultures that are still holding on to the past (Eastern cultures for example)

He succeeded, this is why today we have a Western culture that is totally oblivious to the past, the way things were before Christ. Christ is a new thing; the West is leading humanity into this new consciousness.

Whatever God is doing, it has to do with the life force, the will to live, the libido, the kundalini, the pure energy or pure desire that is at the base of the spine that rises up like a snake to the highest point of awareness. It has to do with human motivation, the hierarchical structure of human needs.

Why the Intermediaries a problem?

■ “Where *there is bewilderment and confusion, much evil spirits*”. Simple problems they cannot solve because the spirit of God is not present among them.

■ If you cannot have clarity of thoughts, a sound mind; you are not dealing with the Holy Spirit of God. You should be sharp, clear minded, highly cognitive of your environment, quick, fluid, flexible and easy to respond to the subtle changes in the environment. Your intuitive capacity to solve problems, offer solutions will increase when God spirit is present. Whenever you see bewilderment and confusion, know that God is not present

Who owns this World?

■ The kingdoms of this world belong to our God and we are the ambassadors of the age to come. We want to influence the sphere according to the truth that God designed them. We cannot be afraid of engaging a culture like Haiti simply because we do not understand it. In order to influence a culture we must try to understand it, engage the people in dialogue and try to learn from them. The Haitian culture is an enigma for some only because they don't understand it or try to learn from it.

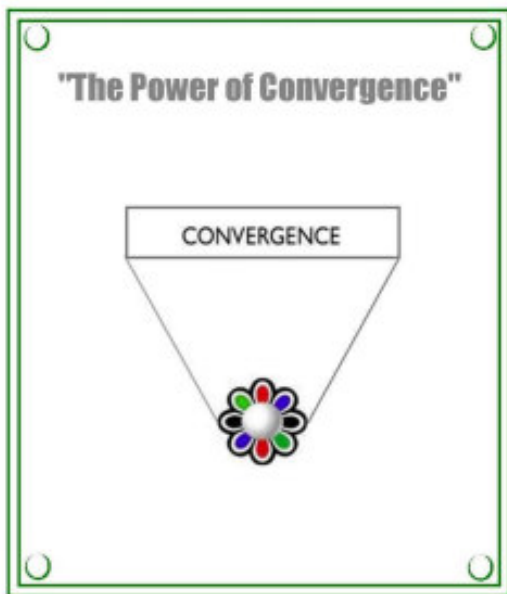

The Goal of Convergence

■ The goal of Convergence is to help you come to a place where you allow God to deal with your ego so that you can access the realm that causes us to be influential. Unless you are in the assignment that God calls you to do; you are wasting your time because be in your assignment is where that you are going to have the greatest influence and the greatest effectiveness. When you are in your assignment you can be in the midst of chaos and have the peace of God, because this is where God wants you to be.

■ I promised to let you know what God reveals to me; I know that the Haitian situation has to do with the core, the life force, whatever it is that gives the Haitian people their will to live, the core of their beings, the kundalini, the seat of desire, the prime motivator, the libido, etc. all the other names associate with it. I wrote you on impulse; I felt your pain, I understand your passion for your country, your people. I had promised to let you know as soon as God gives me the answer. God had given us the answer all along and I did not even know it. Here below an excerpt of what I have been talking about a long time.

I have taken all of the steps necessary to invite people that are in the position to help to support or sponsor “[The Power of Convergence](#)” as a tool to prepare people who engage the **Work** for leadership. I contacted His Holiness, Pope Benedict XVI, President Obama, a prominent Church leader in America, a prominent TV News anchor; I am looking for them to provide funding for The Power of Convergence team to set up seminars twice per month in Haiti for the NGOs, government officials, public officials, CEOs, entrepreneurs, people who are in leadership positions how to get into Convergence.

What they really are?

■ They are remnants of a world gone by. It is the past that refuses to die that is the problem for the present.

■ Click to see: [Intermediaries](#)

See what God is doing!

■ The Humanity is like a snake moving its way through times; the head is the present; those that are moving forward to the future with Christ and the tail represents the past; those that are left behind, lagging behind and cut off out of the possibilities of this world. [Christ](#) came to give them the abundant life; help them partake in the blessing of God. Click to see: [What God is doing?](#)
