

Offer to Make Money

If you are a writer, an illustrator, cartoonist or a 3D animator who is interested in changing the human condition, make a difference in the world, please contact me; I will give you the materials and the right to publish whatever it is you come up that can serve as an educational tool. We need to teach people why people become terrorist, why they are willing to die in order to kill others, why they live in social stagnation and cannot create a better world for themselves to live. Too many lives, too much of our resources are wasted in fighting an illusive enemy that we cannot pin down. Governments of the world have to take it upon themselves to teach their people how they become the enemy; how the good seed that God placed inside of them becomes the bad seed, the seed of wickedness that is driving them to seek destruction instead of creation. We can provide governments around the world the tool to do it in the form of a book or a video animation, some thing that can easily make people understand. Send me a name and an address.

If you are not interested in improving the human condition, you can at least have an interest in making money. Money answers all things, it is money that moves the world. The world is changing, there are people to educate, helping them find new direction, teaching people about the seed of greatness inside of them is where to start. It is that seed when not develop that becomes the source of terror, the source of social stagnation, poverty and poverty related disease in the world.

Use the two graphic description I provided, one is for the development of the seed and the other is for the dispensation system in the world. Both explain the dynamics of life, Attainment and Negation, the forces that shape human existence, how possibility to attain and experience the abundance of this world is given and the other explains the two stages in the development of the seed, arrested development and self importance, a dead end and a plateau. In either case the seed has stopped growing, developing or perfected.
